

**Paul M. Hunt**

Thermodynamic and Stochastic Theory of Nonequilibrium Systems: Fluctuation Probabilities and Excess Work, B. Peng, K. L. C. Hunt, P. M. Hunt, A. Suárez and J. Ross, *J. Chem. Phys.*, 102, 4548 (1995).

Thermodynamic and Stochastic Theory of Nonequilibrium Systems: A Lagrangian Approach to Fluctuations and Relation to Excess Work, A. Suárez, J. Ross, B. Peng, K. L. C. Hunt and P. M. Hunt, *J. Chem. Phys.*, 102, 4563 (1995).

Large Fluctuations and Optimal Paths in Chemical Kinetics, M. I. Dykman, E. Mori, J. Ross and P. M. Hunt, *J. Chem. Phys.*, 100, 5735 (1994).

Thermodynamic and Stochastic Theory of Reaction-Diffusion Systems with Multiple Stationary States, X. L. Chu, J. Ross, P. M. Hunt and K. L. C. Hunt, *J. Chem. Phys.*, 99, 3444 (1993).

Tests of Thermodynamic Theory of Relative Stability in One-Variable Systems, A. N. Wolff, A. Hjelmfelt, J. Ross and P. M. Hunt, *J. Chem. Phys.*, 99, 3455 (1993).

**James E. "Ned" Jackson**

Magnetic Properties of Metal-Intercalated Layered Vanadyl Phosphates, D. Papoutsakis, J. E. Jackson, and D. G. Nocera, *Inorg. Chem.*, 35, 0000 (1996).

Effect of Substituents on Dipolar Coupling in Alkali Metal Ketyl Radical Pairs, S.-H. Jang, C. Mitchell, J. E. Jackson, and B. Kahr, *Mol. Cryst. Liq. Cryst.*, 272, 147 (1995).

Ion Complexation Induced High-Spin Associations of Spin-Labeled Crown Ethers: A Reevaluation, S.-H. Jang, C. Mitchell, J. E. Jackson, and B. Kahr, *Mol. Cryst. Liq. Cryst.*, 272, 139 (1995).

Conversion of Lactic Acid over Supported Sodium Salt Catalysts, G. C. Gunter, J. E. Jackson and D. J. Miller, *Ind. Eng. Chem. Res.*, 34, 974 (1995).

Jacobson and Heintschel Peroxides, S.-H. Jang, P. Gopalan, J. E. Jackson, and B. Kahr, *Angew. Chem. Int. Ed. Engl.*, 33, 775 (1994).

**G. J. Karabatsos**

Structures of the Transition States of Some Intermolecular Hydride Transfer Reactions, G. J. Karabatsos and M. Tornaritis, *Tetrahedron Letters*, 30, 5733 (1989).

Asymmetric Induction-V Effect of R on Asymmetric Induction in Additions to abcC-COR Compounds, C. Zioudrou, I. Moustakali-Mavridis, P. Chrysochou, and G. J. Karabatsos, *Tetrahedron*, 34, 3181 (1978).

**Mercouri Kanatzidis**

A New Metastable Three-dimensional Bismuth Sulfide With Large Tunnels: Synthesis, Structural Characterization, Ion-Exchange Properties and Reactivity of  $\text{KBi}_3\text{S}_5$ , T. J. McCarthy, T. A. Tanzer and M. G. Kanatzidis, *J. Am. Chem. Soc.*, 117, 1294 (1995).

Synthesis in Molten Alkali Metal Polyselenophosphate Fluxes: A New Family of Transition Metal Selenophosphate Compounds,  $\text{A}_2\text{MP}_2\text{Se}_6$  (A=K, Rb, Cs; M=Mn, Fe) and  $\text{A}_2\text{M}'_2\text{P}_2\text{Se}_6$  (A=K, Cs; M'=Cu, Ag), T. J. McCarthy and M. G. Kanatzidis, *Inorg. Chem.*, 34, 1257 (1995).

Telluride Alkylation and Formation of Novel Metal Carbonyl Polytelluride Clusters in Superheated Alcohols. Isolation of the Complexes  $[\text{M}_4(\text{Te}_2)_2(\text{Te})_2(\text{TeMe})_2(\text{CO})_8]^{2-}$  (M=Fe, Ru), B. K. Das and M. G. Kanatzidis, *Inorg. Chem.*, 34, 1011 (1995).

Studies on Conjugated Polymers: Preparation, Spectroscopic and Charge Transport Properties of A New Soluble Polythiophene Derivative: Poly(3',4',-Dibutyl-2,2':5'2"—terthiophene), C. Wang, M. E. Benz, E. LeGoff, J. L. Schindler, J. Allbritton-Thomas, C. R. Kannewurf and M. G. Kanatzidis, *Chem. Mater.*, 6, 401 (1994).

Coordination Chemistry of Heavy Polychalcogenide Ligands, S.-P. Huang and M. G. Kanatzidis, *Coord. Chem. Rev.*, 130, 509 (1994).

**Eugene LeGoff**

Poly(3',4'-Dibutyl- $\alpha$ -Terthiophene-Phenylene-Vinylene): a New Soluble and Dopable Phenylene-Vinylene-Based Conjugated Polymer, C. Wang, X. Xie, E. LeGoff, J. Albritton-Thomas, C. R. Kannewurf, and M. G. Kanatzidis, *Synthetic Metals*, 74, 71 (1995).

Rotational Isomerization Barriers of Thiophene Oligomers in the Ground and First Excited Electronic States. A  $^1\text{H}$  NMR and Fluorescence Lifetime Investigation, J. C. Horne, G. J. Blanchard, and E. LeGoff, *J. Am. Chem. Soc.*, 117, 9551 (1995).

Studies on Conjugated Polymers: Preparation, Spectroscopic and Charge Transport Properties of A New Soluble Polythiophene Derivative: Poly(3',4',-Dibutyl-2,2':5'2"—Terthiophene), C. Wang, M. E. Benz, E. LeGoff, J. L. Schindler, J. Allbritton-Thomas, C. R. Kannewurf and M. G. Kanatzidis, *Chem. Mater.*, 6, 401 (1994).

Oligothiophenes as Models for Polythiophenes. The Crystal Structures of 3",4"-Dibutylpentathiophene and 3',3''',4',4''''-Tetrabutyl-Hexathiophene, J. H. Liao, M. Benz, E. LeGoff and M. G. Kanatzidis, *Advanced Materials*, 6, 135 (1994).

Studies in Polyheterocyclic Conjugated Polymers. A New Synthetic Approach to Polyfuran, M. G. Kanatzidis, S. Glenis, M. Benz, E. LeGoff, J. L. Schindler and C. R. Kannewurf, *Polym. Prepr.*, 35, 303 (1994).
